PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

DETAILED ACTION

1. This office action is responsive to communication filed on June 17, 2008.

Response to Amendment

2. The proposed amendments will not be entered because they raise new issues which would require further search and/or consideration. For instance, claim 49 now includes the limitation that the optical system uses no polarizing plate, and that the optical element has a variable focal length characteristic. These new limitations change the scope of claim 49 and would thus require further search and/or consideration.
